

THE HEAT IS ON!

Tatco Energy Saving Heating Panel

Your Price
\$108.85

The heating panel gently directs the heat where it's needed most—to your cold feet and legs. It does its job while conserving energy, using only one-tenth the energy of most heaters. This innovative heater allows for several users to have a personal warmer without blowing out circuits. Plus, since there's no hot surface, the chance for burns and fire is minimized. There's also no risk of carbon monoxide poisoning. It includes a handy stand that holds the one-inch deep panel and directs the heat, or you can mount it on a wall.
TCO-39000

Deluxe Personal Warmer/Footrest

Your Price
\$67.49

Use two ways—as a heated, tilt-adjustable footrest to warm feet, ease back strain and improve posture. Or, rotate panel and use as a freestanding radiant heat unit. Radiates safe, even heat in two heat settings. Uses only 100 watts. UL and CSA approved. 18-1/4w x 3-7/8d x 13h. Black. Swivel, Tilt Surface
MCG-10604

Mini Tower Surround Heat Heater Fan

Your Price
\$59.39

Capable of a 360 degree full-surround heating or 180 degree front-only heating. The adjustable thermostat makes it easy to find the ideal temperature. Three power settings—low (750 watts), high (1,500 watts) and fan-only. Safety features include: child-resistant selector switch, auto high-off-hi-limit switch, backup thermal circuit breaker, motor thermal cut-off fuse, power-on light and VO rated plastic (above industry standards). Charcoal Gray.
HWL-HZ-2200

Quick Heat Ceramic Heater

Your Price
\$37.61

The innovative ceramic heating elements will stay cool—even to the touch. Adjustable thermostat maintains desired room temperature and saves you the hassle of continually having to monitor the heater. Equipped with 1,500 watts of power and capable of an infinite amount of heat. Features three auto shut-off systems for maximum safety. Made with flame resistant plastic.
HWL-HZ315

FamilySafe Fan-Forced Tower Heater

Your Price
\$93.06

SafetyMax continuous self-check panel automatically runs a diagnostic check of all safety features. Safety features include: tip-over protection, automatic overheat protection, auto safety timer and contact sensor. SafetyMax contact infrared sensor system shuts heater off if anything gets too close to the grille and then turns it back on when object is removed. 1,500 watts of power.
